

SPIS TREŚCI

1.	Integrated Production Management System in Surface Mining <i>D. Bogunovic, V. Kecojevic</i>	5
2.	The Future Contribution of Coal to the Energy Requirements of South Africa <i>K.C. Chabedj, H.R. Phillips</i>	15
3.	A Project Management Approach to the Undergraduate Mining Engineering Thesis <i>P. Hagan, B. Beamish, Ch. Daly</i>	27
4.	EXPLORES – Cooperation in Training and Research at an European Level Related to Mineral Exploration and Mining <i>E. Hartai, J. Földessy</i>	37
5.	Rare Earth Elements: A Review and Analysis of their Multi-dimensional Global Importance <i>S.N. Kamenopoulos, Z. Agioutantis</i>	45
6.	Future Challenges in Mining Division, Are we Ready for these Challenges? Do we Have Solid Educational Program <i>M. Osanloo</i>	61
7.	Implementation of Project-Based courses in Mining Engineering Education <i>S. Saydam, R. Mitra,</i>	71
